The date of receipt, if it falls within the working days and times of REKI, is counted as the first day. If the cancellation takes place outside the openings hours, the commencement date of the opening hours will be used.
The notice period is 4 weeks and you will receive the agreed end date from us in writing via email

The parental contribution is calculated on 51 weeks, divided by 12 months, resulting in an average hourly and monthly rate that is rounded up.
In the last month, the actual used days and hours are recalculated on the taken months. Any additional costs will be charged to you because you break open the agreement earlier.

Apply for childcare allowance (see website)
